

DO YOU WANT SAFER CYCLING & WALKING ROUTES IN YOUR NEIGHBOURHOOD?

Sussex Greenways is working to improve local Rights of Way to create traffic-free Greenways where cyclists, walkers, horse-riders and disabled users can safely enjoy our beautiful countryside.

We are also working to designate Quiet Lanes on rural roads, which are marked by advisory signs to encourage car drivers to slow down and help local users and visitors alike to confidently use a bike, ride or walk.

How can you help make this happen?

Once you've signed up, spread the word in your local community by social media or by passing this leaflet to a friend or neighbour. Thank you!
